Mohamed Shrief

Junior Frontend & Backend Developer

objective

I'm always longing to work with an experienced team to learn from and add to them.

Skills

- JavaScript & TypeScript (main)

- Nodejs & Express.js.

- Vuejs, Pinia and vue-router.

- Postgres, MySQL and MongoDB.

- CSS & SCSS.

- Docker's basics.

Learning & Courses

- CMU, Intro to DBMS (2022)

- "CS50P" (2022)

- IBM, Introduction to DevOps

- IBM, Introduction to Cloud Computing

Looking to be

- Consistent.
- Doing priorities first.
- Dedicated to deadlines.
- Very flexible but very clear.
- Putting no cognitive load on users.
- Putting security always in mind.
- Honest and direct communication

I respect having:

- An Ethical Environment

- Anti Toxic Positivity/Negativity people

- Meaningful Work

Projects

Most of my projects are different implementations of "Adeeb أديب" project. It's concerned with arabic literature: poetry and prose. It assumes a business model to order a specific piece of literature to be printed with especial color, font then it'll be delivered to the customer, with the ability for the customer to follow up the process.

Implementations:
- Vue, Pinia and vue-router for the frontend.
- Node/Express and MongoDB for the backend.

Currently finishing:
- Developing SSR front-end for "Adeeb أديب" using Quasar Framework and Vue.
- Migrating "Adeeb أديب" Backend to use PostgreSQL.
