Mohamed Shrief
Junior Web Developer

objective

Getting solid ground of knowledge, by working and learning from experienced people to solidify my skills

Skills

- JavaScript (ES5, ES6)
- TypeScript
- VueJS + (Pinia and vue-router)
- NodeJS and Express.JS
- PHP & Laravel
- MySQL and MongoDB
- CSS, SCSS and TailwindCSS
- Docker's basics

    Working to add:

- Solid ground on Databases
- Unit/E2E Testing using Cypress and Jest
- Basic knowledge about Architecture and Design

I respect having:

- An Ethical Environment
- Anti Toxic Positivity/Negativity people
- Meaningful Work

Looking to be

- Consistent.
- Doing priorities first.
- Dedicated to deadlines.
- Very flexible but very clear.
- Putting no cognitive load on users.
- Developing and Deploying with security always in mind.
- Honest and direct communication

Projects

As a Junior, I don't have that much experience, so I have a project to show my skills:

"Adeeb أديب", concerned on arabic literature: poetry and prose. It assumes a business model to order a specific piece of literature to be printed and delivered to customer, with the ability for the customer to follow up the process.

Developed with Vue, Pinia and vue-router, Node/Express and MongoDB, All in TypeScript.
