

Mohamed Shrief

Junior Software Developer

(Backend - Frontend)

Portfolio: <https://astro-portfolio-a63.pages.dev>

E-mail: m.shrief.dev@proton.me

GitHub: <https://github.com/m-shrief>

LinkedIn: <https://www.linkedin.com/in/mohamed-shrief-12b2272b0/>

Location: Cairo, Egypt

Phone: +201025331595

Date of Birth: 01-01-2002

Military Status: Exempted (04-2026)

Skills

- Python with FastAPI
 - Go with Huma and Chi.
 - Postgres, MongoDB and Redis/ValKey
 - JavaScript and TypeScript
 - Nodejs with Express.js & Hono.
 - Vuejs and its' ecosystem (like Pinia and VueRouter)
 - Vite, Vitest and Cypress
 - Astro
 - Containerization using Podman and Docker
-

Projects

1. “أديب Adeeb”

E-Commerce for printing Arabic Literature, using an SSR frontend with a RESTful API and gRPC API. ([Frontend's repo](#) – [Backend's repo](#))

Tech stack

- Adeeb's frontend:
 - JavaScript and TypeScript
 - Vite
 - Vuejs and Astro
- Adeeb's backend:
 - JavaScript and TypeScript

[Get up-to-date resume](#)

- Nodejs and Express.js
- PostgreSQL and TypeORM and Caching with Redis/ValKey
- Users' service:
 - Go
 - PostgreSQL with Sqlc and Pgx.

Characteristics

- +90 marks on google's lighthouse.
- JWT authentication and authorization.
- Internationalization
- Data validation.
- Dark/Light Theme.
- Regression and Component testing with Vitest
- Documentation with TSdoc and TypeDoc.
- Sentry for monitoring errors and performance
- Docker Containerization

Deployment

- Duration: From September 2023 to April 2024
- Using Digital ocean server, with Ubuntu and Nginx.
- Used CloudFlare to manage Domains, DNS, SSL, CDN and on.

Other iterations

- Adeeb's REST API written in **Python**, with FastAPI ([repo](#))
- Adeeb's REST API written in **Go**, with Huma & Chi ([repo](#))
- Adeeb's Frontent as a **SPA** ([repo](#))
- Adeeb's REST API written with **Hono** & MongoDB ([repo](#))

2. Forgejo

Setting up a Forgejo instance to self-host a Version Control System (VCS), with forgejo-runner for CI/CD actions, all containerized with Podman. ([repo](#))

Education

- Graduated from Faculty of Commerce, Cairo University at 2025.
- Courses
 - ITI's Mahara-Tech (online):
 - Python Programming Basics ([certificate](#))
 - Computer Networks Fundamentals ([certificate](#))
 - CMU, Intro to Database Systems 2022 (online)
 - Redis university, Introduction to Redis Data Structures "RU101" (online)
 - IBM, Introduction to DevOps & Cloud Computing (online)
