Mohamed Shrief
Junior Software Developer
Backend & DevOps

Portfolio: https://astro-portfolio-a63.pages.dev
E-mail: m.shrief.dev@proton.me
GitHub: https://github.com/m-shrief
LinkedIn: https://www.linkedin.com/in/mohamed-shrief-12b2272b0/
Location: Cairo, Egypt
Phone: +201025331595
Date of Birth: 01-01-2002
Military Status: Exempted (04-2026)

Skills

- Python and its ecosystem, like FastAPI
- Go and its ecosystem, like Huma and Chi.
- Postgres, MongoDB, and Redis/ValKey
- JavaScript and TypeScript
- Node.js and Deno, and their ecosystem, like Express.js & Hono.
- Containerization using Podman and Docker

Projects

Backend Projects

“Adeeb أديب ”

Adeeb’s RESTful API, made in multiple iterations in different languages, while adopting the same standards like JWT authorization, input/output validation...etc.

- Adeeb’s REST API written in **Python**, with FastAPI & Postgres. (repo)
- Adeeb’s REST API written in **Go**, with Huma & Postgres. (repo)
- Adeeb’s REST API written in **Nodejs**, with Hono & Postgres. (repo)
- Adeeb’s REST API written in **Nodejs**, with Hono & Mongo. (repo)

Users’ Service

gRPC service to handle Users' authentication & authorization. Made in Go with ConnectRPC and Buf. (repo)

DevOps Projects

Deploying Adeeb's Fullstack website
deployed a fullstack iteration of adeeb using Docker containerization for 3 parts: SSR frontend written in astro, RESTful API written in Node, Uses' service written in Go. (Frontend's repo - Backend's repo – Preview)

- Duration: From September 2023 to April 2024
- Deployed on Ubuntu with Nginx
- Used Cloud services like Digital Ocean and CloudFlare to host services, and manage Domains, DNS, SSL, CDNs and on.

Forgejo instance
Setting up a Forgejo instance to self-host a Version Control System (VCS), with forgejo-runner for CI/CD actions, all containerized with Podman. (repo)

Education

- Graduated from Faculty of Commerce, Cairo University at 2025.
- Courses
  - ITI's Mahara-Tech (online):
    - Python Programming Basics (certificate)
    - Computer Networks Fundamentals (certificate)
    - GIS Principles & Techniques (certificate)
  - CMU, Intro to Database Systems 2022 (online)
  - Redis university, Introduction to Redis Data Structures "RU101" (online)
  - IBM, Introduction to DevOps & Cloud Computing (online)
